

## ***ACT for Practice-- Saturday, March 14, 2020***

### **Find out fast how to improve your score on the official ACT!**

Students have an opportunity to take an actual ACT without it being on their record. After the test, they *keep the test booklet* and get a *solution key*. In a few days, they get a *complete analysis* that pinpoints areas of weakness so they can focus on improvement efforts.

### **Who should take the ACT for Practice?**

**Juniors** need to take the ACT for Practice because it gives an opportunity to review before the official ACT offered April 6, 2020.

**Sophomores and Freshman** should take the ACT for Practice for the experience because practice usually makes your scores higher each time that you take the exam.

### **What is the advantage of taking the ACT for Practice?**

With the *official ACT*, you wait four to six weeks for results, but since you do not have the test, you can't figure out why you missed questions. With the ACT for Practice, you can keep your test booklet and you receive a solution key when you leave the testing site. Within 3-5 days, you will receive a personalized print-out highlighting your correct/incorrect answers in each category. You will know *exactly* where to spend your time to improve your score! It is effective, fast and off the record!

Registration Deadline: **Wednesday, March 4, 2020**
