Average Number of Students per Teacher – Last Ten School Years.....	S44

December 19, 2013

Board of Education and Residents of Mayfield City School District:

This report enables the School District to comply with Ohio Administrative Code Section 117-2-03 (B), which requires reporting on a GAAP (Generally Accepted Accounting Principles) basis, and Ohio Revised Code Section 117.38 which requires school districts to file unaudited general purpose external financial statements with the Auditor of State within 150 days of fiscal year end.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

State statutes require the School District to be subjected to an annual examination by the Auditor of State. The Auditor of State's office rendered an opinion on the School District's financial statements as of June 30, 2013, and the Independent Auditor's Report on the basic financial statements is included in the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

The School District

Located in the eastern suburbs of Cleveland, Ohio, Mayfield City School District is comprised of four diverse and dynamic communities: the Cities of Highland Heights and Mayfield Heights and the Villages of Gates Mills and Mayfield. The School District services 4,111 students.

Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code, to provide education services mandated by State and Federal agencies.

The School District is comprised of four neighborhood elementary schools (all grades K through 5), a sixth through eighth grade middle school, and a ninth through twelfth grade high school. In addition to administering these schools, the School District oversees three consortium programs which draw students from neighboring school districts: Millridge Center for Hearing Impaired Children (MCHI), an elementary school for hearing impaired students; the Cuyahoga East Vocational Education Consortium (CEVEC), a program which prepares older developmentally-handicapped students for work and independent living; and Excel T.E.C.C., which provides vocational, technical and job skill training to high school students.

Dr. Keith Kelly, Superintendent

Scott C. Snyder, Treasurer

The Mayfield City School District provides a comprehensive array of programs and services in six school buildings. Course offerings, supplemented by extra-curricular opportunities, afford students with the skills necessary to pursue post-high school educational and career goals.

The students enrolled in the Mayfield City School District attend classes in the following buildings:

- Gates Mills Elementary School built in 1924, with additions in 1950 and 1964, houses students in kindergarten through grade 5.
- Lander Elementary School built in 1956, with an addition in 2010, houses students in kindergarten through grade 5.
- Mayfield Center School built in 1951, with additions in 1953, 1955, 1968, 2004 and 2011, houses students in kindergarten through grade 5.
- Millridge Elementary School built in 1959, with an addition in 1964, 2004 and 2011, houses students in kindergarten through grade 5.
- Mayfield Middle School built in 1924, with additions in 1927, 1935, 1955, 1956, 1957, 1959 and 2011, houses students in grades 6 through 8.
- Mayfield High School built in 1963, with an addition in 1965 and 2011, houses students in grades 9 through 12.

The Mayfield City School District is proud of the broad spectrum of programs it offers. In addition to academics, Mayfield offers rich and diverse extracurricular opportunities for students, beginning in elementary schools. Elementary after-school latch-key programs are also offered on-site, but are privately managed.

Mayfield has enjoyed an excellent reputation as one of the top school systems in Ohio. This is due, at least in part, to its excellent and committed staff, the majority of whom hold advanced degrees. Mayfield City School District's students, as a whole, exhibit a strong academic ability. The Class of 2013 produced two National Merit Finalists, an accomplishment which less than one-half of one percent of all graduating U.S. seniors can claim. The Class of 2013 also had three National Merit Commended Scholars, which is an accomplishment that less than five percent of the U.S. graduates will earn. The community has a long-standing history of support and involvement in the School District. An organized volunteer program, which includes students, parents and community members, further enriches the Mayfield City School District.

The School District's annual general fund operating budget is in excess of \$60 million. For fiscal year 2013 there were 726 professional and support personnel who provide an overall 13.71 pupil/teacher ratio. For fiscal year 2012 there was a cost per pupil of \$14,818 (latest information available), which represents the most recent statistics provided by the Ohio Department of Education. Guidance counselors serve students in kindergarten through twelfth grade. The School District also employs a substance abuse coordinator, occupational and speech therapists, psychologists, English as a Second Language (ESL) instructors and gifted intervention specialists. In addition to providing three staff development days and one additional staff in-service day, the School District reinvests in programs to support professional staff development for teachers, administrators and support staff. The School District also actively pursues educational grants.

The annual budget serves as the foundation for the Mayfield City School District's financial planning and control. The budget is prepared by fund. The Treasurer has been given the authority to allocate board appropriations to the function and object levels within each fund. Transfers between funds, however, need special approval from the governing board.

Economic Condition And Outlook

The School District is served by diversified transportation facilities, including immediate access to Interstate I-271 (running through the School District). This easy access has resulted in the development of two industrial parks in the School District. The School District is comprised of four distinctive communities; the cities of Highland Heights and Mayfield Heights and the Villages of Mayfield and Gates Mills.

The City of Highland Heights is primarily a residential community. The City's largest residential development is the Aberdeen Development, which is a 400-acre golf course-residential community located in the northwest section of the City. Stonewater boasts, a championship 18-hole golf course, within the Aberdeen Development. Maypine Farms is the newest residential development, located on 60 acres in the northeast corner of the City. Maypine Farms will feature 53 single-family homes when completed.

The industrial base of the City of Highland Heights continues to maintain its strength in industrial park areas, which together include more than 200 companies. Industry in the City is currently focused in two industrial park areas, Alpha Drive Industrial Park and Avion Industrial Park.

The economic base of the City of Mayfield Heights is substantial and somewhat diverse with a considerable retail and office base that complements the City's sizable residential population. According to the 2010 census data, approximately 93 percent of the land area in Mayfield Heights, about 2,578 acres, had been developed.

Commercial land uses occupy approximately one-third of the land in the City. The Hillcrest Hospital complex, and its related businesses, remain a primary source of employment for the City, and private businesses have become more important to the City's tax base over the years. With an estimated 1.9 million square feet of retail square footage, Mayfield Heights has grown to become a regional retail center due to its location on Interstate 271 and its high concentration of residents. The City is also home to two business parks – the Landerbook Corporate Center and the Parkland Corporate Office Center.

Mayfield Village is unique in that the Metroparks North Chagrin Reservation represents 27 percent of its total land area, or 655 acres. Remaining land use in the Village is concentrated largely in residential use, representing approximately 60 percent of total land in the Village.

Progressive Casualty Insurance Company (Progressive), one of the largest automobile and specialty insurers in the nation, is headquartered in Mayfield Village.

Buoyed by the presence of the world headquarters of Progressive, the Village's tax base is approximately 40 percent commercial. Mayfield Village has succeeded in directing commercial activity to certain areas of the Village in order to preserve its residential character. Office and industrial uses encompass approximately 13 percent of total land area in the Village. The Beta Drive industrial area is the largest area of the office/industrial districts, representing approximately 22 percent of the Village's land zoned for office and industrial use.

Gates Mills Village is a very affluent community of quality homes and considerable green-space. There are no apartments or condominiums in the Village. Based within Gates Mills' 8.8 square miles, there are three churches, three schools, one post office and a library.

Income Tax Sharing Agreements: The School District enjoys tax revenue sharing agreements for properties located within tax abatement designated areas within the City of Highland Heights, Mayfield Village, and the City of Mayfield Heights. The tax abatement areas include enterprise zones, community reinvestment areas, and tax incremental financing zones. Generally, in exchange for certain real property tax abatements, the municipalities agree to make the School District whole for lost property taxes by sharing the income taxes generated up to the amount of taxes forgone. The School District received \$2,211,482 in calendar year 2012 and \$2,300,466 in calendar year 2011 from such agreements.

Enrollment for the 2003-2004 school year was 4,331 students. Enrollment for the 2012-2013 school year was 4,111 students. The School District projects enrollment to continue along its leveled trajectory and consistent with historical trends given that the 4-communities are residentially mature.

Major Initiatives

During the past year the following goals were achieved:

1. Successes earned by Mayfield's Class of 2013, include six National Merit Finalists and/or National Merit Commended Scholars, 11 Students with perfect attendance, 4 Academic Hall of Fame inductions, and \$8.5M in scholarships awarded.
2. Mayfield City School District earned an A on the Ohio Report Card from the Ohio Department of Education by meeting 24 of 24 indicators.
3. Mayfield High School was named to the national Advanced Placement District Honor Roll by The College Board, was listed among the "nationally recognized" high schools by U.S. News & World Report, and was named as one of "America's Most Challenging High Schools" by The Washington Post.
4. Mayfield City School District hosted its annual Kindergarten through twelfth grade ARTSFEST in cooperation with the Mayfield Business Alliance and Hillcrest Hospital. The School District also hosted its annual Science and Technology Showcase at Mayfield High School in cooperation with the Mayfield Business Alliance and Rockwell Automation.
5. Mayfield City School District continues to focus its curriculum on math and science at the upper elementary grades and a K-3 literacy program to monitor student success coupled with the Third Grade Reading Guarantee, and its professional development on strategies to improve student achievement across the School District for all students.
6. Mayfield City School District successfully completed its \$38.5 million three-year facilities renovation plan to enhance the safety and security, program enhancements, and infrastructure at all of its school buildings.

The Mayfield Business Education Community Foundation Alliance was established in May 1996 to provide funds for extended educational activities and projects not provided for by School District funds and to serve as the District's Business Advisory Committee. The Alliance is funded by several major fund raising initiatives held annually. These monies have been used to provide students with supplemental reading materials and computer support.

Community involvement is evidenced by citizen membership on various School District committees that include among others, Curriculum Advisory Committee, Vocation Education Consortium, Audit and Legislative Liaison. The Board has established an internal committee for formal community information that distributes a newsletter periodically during the year to residents of the School District.

Long-Term Financial Planning

The Board of Education is committed to long term planning as is evidenced by its policy 6210 Fiscal Planning. The policy states the following:

As trustees of the community's investment in the facilities, materials, and operational funds, the Board of Education has a fiduciary responsibility to ensure that the investment is protected and used wisely.

Because of resource limitations, there is sometimes a temptation to operate so that fiscal concerns overshadow the educational program. Recognizing this, it is essential that the Board take specific action to make certain that education remains central and that fiscal management contributes to the educational program. This concept is incorporated into Board operations and into all aspects of District management and operation.

The quantity and quality of learning programs are related to the funding provided and the effective, efficient management of those funds. It follows that the School District's purposes can be achieved through prudent fiscal planning.

Fiscal planning is an integral part of program planning so that the annual operating budget may effectively express and implement all programs and activities of the School District. Fiscal planning is a year-round process involving broad participation by administrators, teachers, and other personnel throughout the School District.

The Board shall collect and assemble the information necessary to discharge its responsibility for the fiscal management of the School District and to plan for the financial needs of the educational program. The Board will strive toward maintaining both short and long-range projections of District financial requirements.

Accordingly, the Board directs the Superintendent and Treasurer/CFO to:

- Include cost estimates in all ongoing financial requirements;*
- Prepare a long range year-by-year plan for the maintenance and replacement of facilities and equipment;*
- Maintain a plan of anticipated local, State, and Federal revenues;*
- Report to the Board any serious financial implications that emerge from the School District's ongoing fiscal planning.*

In addition, the Board directs the Superintendent and Treasurer/CFO to maintain annually a detailed five year projection of estimated revenues and expenditures, as required by Policy 6231.

Relevant Financial Policies

The Board of Education continues to endorse the following student achievement goals and priorities, which affects fiscal asset allocation and assessment of School District progress.

Mayfield School District priorities for student achievement:

- Improve academic achievement for every student
- Improve and nurture internal and external collaborative partnerships
- Improve the efficiency and effectiveness of district and school operations
- Create and maintain a safe and caring environment

Awards and Acknowledgements

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Mayfield City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2012. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ASBO Certificate

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to Mayfield City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2012.

The Association of School Business Officials International (ASBO) awards a Certificate of Excellence in Financial Reporting. This award certifies that the Comprehensive Annual Financial Report substantially conformed to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. This award is granted only after an intensive review of the financial report by an expert panel of certified public accountants and practicing business officials. Management believes that the Comprehensive Annual Financial Report for fiscal year ended June 30, 2013, will conform to ASBO's principals and standards.

Acknowledgments

The publication of this report is a significant step toward professionalizing the Mayfield City School District's financial reporting. It enhances the School District's accountability to the residents of the Mayfield City School District.

The preparation of this report would not have been possible without the assistance and support of the staff of the Treasurer's office, various administrators and staff members of the School District. Assistance from the County Fiscal Officer's staff and outside agencies made possible the fair presentation of statistical data.

Special appreciation is expressed to the Local Government Services Section of State Auditor Dave Yost's office for assistance in planning, designing and reviewing this financial report.

Sincere appreciation is extended to the Board of Education for their support for this project.

INDEPENDENT AUDITOR'S REPORT

Mayfield City School District
Cuyahoga County
1101 SOM Center Road
Mayfield Heights, Ohio 44124

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mayfield City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Mayfield City School District, Cuyahoga County, Ohio, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and Special Rotary funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2013, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Mayfield City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2013
Unaudited

The discussion and analysis of Mayfield City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2013. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2013 are as follows:

- ❑ Effective January 1, 2013 the School District began collecting on its continuing combination operating (5.4 mills) and permanent improvement (.5 mills) levy that was passed on March 6, 2012. With this levy passage, the School District continues to project its next levy 4 years from this passage rather than the typical 3-year levy cycle. Of course, the School District will continue to operate with an emphasis on solid financial planning and budget scrutiny.
- ❑ The School District continues to boast one of the lowest school tax rates in Cuyahoga County – tenth lowest of 32 districts, according to the most recent tax information. The School District provides its students and families with a high quality, affordable education.
- ❑ The School District lowered its personnel expenditures through the reductions of support, teaching and administrative positions while also implementing year one of a two year pay freeze to all classifications of employees.
- ❑ In fiscal year 2013, the operating budget for the School District was under spent by 2.06 percent when comparing actual to estimated expenditure activity. This is largely attributed to our budgeting methodology of allocating resources based on predetermined goals and objectives, all of which are focused on key performance measures.
- ❑ The School District received the “Auditor of State Award with Distinction” from State of Ohio Auditor Dave Yost for its excellent record keeping and its clean audit.
- ❑ The School District successfully concluded its \$38.5 million capital improvements plan with renovations occurring at each of its buildings and related sites that encompassing the following three themes of safety and security, infrastructure, and program enhancements.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Mayfield City School District as a financial whole, or complete operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and the Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate and longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements explain how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the Mayfield City School District, the general fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While these statements contain information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2013?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all non-fiduciary assets and deferred outflows and liabilities and deferred inflows using the accrual basis of accounting, similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in that position. This change in net position is important because it tells the reader that, for the School District as a whole the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, all of the School District's activities are classified as governmental. All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, operation of food services and extracurricular activities.

Reporting the School District's Most Significant Funds

The analysis of the School District's major funds begins on page 10. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general, special rotary special revenue and permanent improvements capital projects fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds The School District maintains two proprietary funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the School District's various functions. The School District's internal service funds account for revenues used to provide for medical, prescription drug, and vision claims of School District employees and workers' compensation. The proprietary funds use the accrual basis of accounting.

Mayfield City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2013
Unaudited

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs. These funds use the accrual basis of accounting.

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net position for 2013 compared to 2012:

Table 1
 Net Position
 Governmental Activities

	2013	2012	Change
Assets			
Current and Other Assets	\$103,471,236	\$106,700,315	(\$3,229,079)
Capital Assets, Net	64,492,849	51,019,244	13,473,605
<i>Total Assets</i>	<u>167,964,085</u>	<u>157,719,559</u>	<u>10,244,526</u>
Deferred Outflows of Resources	<u>67,864</u>	<u>79,175</u>	<u>(11,311)</u>
Liabilities			
Current Liabilities	10,707,035	12,562,533	(1,855,498)
Long-Term Liabilities			
Due Within One Year	2,216,102	2,075,934	140,168
Due In More Than One Year	43,244,141	44,758,937	(1,514,796)
<i>Total Liabilities</i>	<u>56,167,278</u>	<u>59,397,404</u>	<u>(3,230,126)</u>
Deferred Inflows of Resources	<u>47,385,579</u>	<u>44,612,407</u>	<u>2,773,172</u>
Net Position			
Net Investment in Capital Assets	23,471,930	14,252,774	9,219,156
Restricted for:			
Capital Projects	3,098,759	4,782,993	(1,684,234)
Debt Service	1,424,989	1,356,581	68,408
Other Purposes	2,716,819	2,061,478	655,341
Unrestricted	<u>33,766,595</u>	<u>31,335,097</u>	<u>2,431,498</u>
<i>Total Net Position</i>	<u><u>\$64,479,092</u></u>	<u><u>\$53,788,923</u></u>	<u><u>\$10,690,169</u></u>

By comparing assets and deferred outflows of resources and liabilities and deferred inflows of resources, one can see the overall position of the School District has improved as evidenced by the increase in net position. Management continues to diligently plan expenses, staying carefully within the School District's revenues in an effort to maintain the durations between its levy requests.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for the current year. Table 2 shows total revenues, expenses and changes in net position for the fiscal year 2013 and 2012.

Revenues	\$87.3	\$89.0
Expenses	76.6	81.9

Governmental Activities

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. It increases as a result of new construction or collection from a new voted levy. Although school districts experience inflationary growth in expenses, tax revenue does not keep pace with the increased expenses due to House Bill 920. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay less than \$35.00 and the School District would collect the same dollar value the levy generated in the year it passed. The 10 percent rollback on all residential/agricultural property and the 2.5 percent rollback on all owner occupied homes would reduce the amount of taxes paid. Thus school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes decreased due to a decrease in the amount available as an advance at June 30.

Overall expenses decreased in fiscal year 2013. The School District was able to reduce the overall growth of its program expenses through the reductions of support, teaching and administrative positions while also implementing year one of a two year pay freeze to all classifications of employees, by managing inflationary factors associated with its fixed cost categories of utilities, insurances, tuition, auditor and treasurer fees, etc., and by keeping pace with continual program and educational mandates from both Federal and State agencies.

Revenue from operating grants increased in fiscal year 2013, due to the School District diligently pursuing additional grant monies. The School District actively pursues grants and controls expenses while still maintaining the high academic standards the residents expect of the School District.

Parents continue to have the opportunity to pay for the student's lunch online. Each student uses his/her personal identification number, that accesses his/her account, when visiting the cafeteria. The School District is researching the ability of parents to pay for work book fees and extracurricular activities online as well.

Mayfield City School District
Management's Discussion and Analysis

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

The negative amounts indicated in Table 3 should not be construed as something bad; they are merely indicative of whether a particular function of government relies on general revenues for financing or is a net contributor of resources to the School District. Clearly, the four communities that comprise the School District (Gates Mills, Highland Heights, Mayfield Heights and Mayfield Village) are, by far, the greatest source of financial support for the students of the Mayfield City Schools.

The School District's Funds

Information regarding the School District's major funds begins on page 18. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$84,542,719 and expenditures of \$90,874,486. The general fund had an increase in fund balance mainly due to increases in property taxes as well as a decrease in expenditures due to employees retiring and the positions not being filled. Property taxes increased due to the School District starting to receive collections of a levy passed in the prior year. The special rotary special revenue fund had an increase in fund balance mainly due to increases in intergovernmental revenue

Mayfield City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2013
Unaudited

and decreases in expenditures due to a number of employees who retired in fiscal year 2012 whose positions were not filled. The permanent improvements and construction capital projects funds had decreases in fund balances due to the capital projects expenditures for various building improvements throughout the School District. Other governmental funds had a decrease in fund balance due to an increase in expenditures. The increase in expenditures is largely due to final project payments made on capital projects throughout the School District from the construction capital projects fund. As one can see from the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds, property taxes from the communities that comprise the School District are the largest revenue source, accounting for 62 percent of total governmental revenue.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant fund to be budgeted is the main operating fund of the School District, the general fund.

During the course of fiscal year 2013, the School District amended its general fund budget several times. The School District uses an operational unit budget process and has in place systems that are designed to tightly control expenses but provide flexibility for program based decision and management.

The School District's actual general fund expenditures were \$1,944,950 lower than the final estimate. This is due in large part to the School District's continued commitment to provide a quality education while still controlling the costs of a quality education.

Capital Assets and Debt Administration

Capital Assets

Table 4 shows fiscal 2013 balances compared to 2012:

Table 4
 Capital Assets at June 30
 (Net of Depreciation)
 Governmental Activities

	2013	2012
Land	\$493,299	\$493,299
Construction in Progress	0	25,434,975
Land Improvements	1,179,491	1,296,127
Buildings and Improvements	58,629,553	20,233,062
Furniture and Fixtures	1,733,868	1,337,652
Vehicles	2,299,840	1,930,003
Textbooks	156,798	294,126
<i>Total Capital Assets</i>	\$64,492,849	\$51,019,244

The School District made improvements to several school buildings to enhance the safety, security and health of the students. The School District also continued to expand and renovate many of its sites. These increases were offset by the annual depreciation. Ohio law requires school districts to set

Mayfield City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2013
Unaudited

aside three percent of certain revenues for capital improvements. For fiscal year 2013, this amounted to \$699,401 for the set aside. See Note 10 to the basic financial statements for additional information on the School District's capital assets and Note 18 for additional information regarding required set-asides.

Debt

Table 5 summarizes the School District's long-term debt outstanding.

Table 5
Outstanding Long-term Debt at June 30
Governmental Activities

	2013	2012
2009 Refunded School Improvements Bonds 2.625 - 4.25%	\$2,794,824	\$3,209,795
2006 Certificates of Participation 4 - 4.4%	13,049,178	13,357,019
2009 Certificates of Participation 4.9 - 6.7%	21,977,401	22,424,948
Ohio School Facilities Commission Loan 0.00%	566,671	633,337
2010 Certificates of Participation 5.25%	3,600,000	3,805,000
Total	\$41,988,074	\$43,430,099

The 2010 Certificates of Participation were issued to finance school construction and improvements to its lower-level bus storage garage and will mature in fiscal year 2028. The 1998 school improvement bonds were issued to fund the science facility at Mayfield High School and were refunded in 2010 to take advantage of better interest rates. The refunded bonds mature in calendar year 2018. The 2009 Certificates of Participation were issued to improve school buildings and will mature in fiscal year 2037. The 2006 Certificates of Participation of \$15,000,000 were issued as a part of facilities improvement plan to be repaid by using the revenues from the .9 mill continuing permanent improvement levy passed in May 2006. Additionally, the School District received two \$500,000 interest free loans from the Ohio School Facility Commission for various upgrades to the Excel Technical Education Career Consortium wing of the high school. These loans will be repaid with user charges from participating school districts and will be retired in calendar year 2021.

The School District's overall legal debt margin was \$115.8 million. The School District maintains an Aa2 bond rating. For more information about the School District's debt, see Note 14 to the basic financial statements.

Graph 2

School District Outlook

The Board of Education and administration closely monitor revenues and expenditures in accordance with its financial forecast. The School District ranks among the top schools in Ohio for educational excellence. In 2012, the School District scored 23 out of 26 on the State Report Card and earned the Excellent with Distinction. In 2013, the School District scored 24 out of 24 on the State Report Card and earned an A according to the new ranking system.

The financial future of the School District is not without its challenges though. These challenges are internal and external in nature. The internal challenges will continue to exist as the School District must rely heavily on local property taxes to fund its operations. External challenges continue to center around the State's approach to its educational funding program that generates minimal to no growth for the School District.

Although the School District relies heavily on its property taxpayers to support its operations, the community support for the schools is quite strong. As previously mentioned, the School District passed a 5.9 mill continuing dual purpose levy in March of 2012. The passage of this levy helps fund the general operations and permanent improvements of the School District. The School District has communicated to the community that it must rely upon their support for the majority of its operations, and will continue to work diligently to plan expenses, staying carefully within the School District's financial five-year plan. The community also realizes the income generated by local levies remains relatively constant, therefore forcing the School District to come back to the voters from time to time to ask for additional support.

The School District consistently monitors all current and pending legislation within the Ohio General Assembly which impacts school districts. The Tangible Personal Property Loss Payments the School District currently receives represents 5.81 percent of operating revenue and approximately 2.89 mills of local property taxation. The School District assumes that these payments are permanent, as recent legislation mandates. However the School District continues to be cognizant of the potential elimination of this important State subsidy and recognizes that it will need to reduce its programs and ask its remaining tax base to make up these resources. The School District's most recent October 2013 Board Approved Five Year forecast shows an anticipated deficit of approximately \$4.88 million at the conclusion of fiscal year 2019.

Mayfield City School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2013
Unaudited

As a result of the challenges mentioned above, it is imperative the School District's management continue to carefully and prudently plan in order to provide the resources required to meet student needs over the next several years.

In summary, the School District has committed itself to financial and educational excellence for many years to come. The School District has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting since 1997 and the Association of School Business Officials (ASBO) Certificate since 2006.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information contact Scott Snyder, CPA, Treasurer/CFO, at Mayfield City School District, 1101 SOM Center Road, Mayfield Heights, Ohio 44124 or E-mail at ssnyder@mayfieldschools.org.

*Reconciliation of Total Governmental Fund Balances to
 Net Position of Governmental Activities
 June 30, 2013*

Total Governmental Fund Balances	\$35,978,240
---	---------------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	64,492,849
---	------------

Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.

Delinquent Property Taxes	5,067,906
Payment in Lieu of Taxes	1,959,471
Intergovernmental	<u>21,451</u>

Total	7,048,828
-------	-----------

An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.	2,949,585
--	-----------

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.	(598,031)
--	-----------

Deferred Outflows of Resources represent deferred amount on refundings which are not reported in funds.	67,864
---	--------

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds:

General Obligation Bonds	(2,794,824)
Certificates of Participation	(38,626,579)
Ohio School Facilities Commission Loan	(566,671)
Compensated Absences	(3,421,736)
Special Termination Benefits	<u>(50,433)</u>

Total	<u>(45,460,243)</u>
-------	---------------------

<i>Net Position of Governmental Activities</i>	<u><u>\$64,479,092</u></u>
--	----------------------------

*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2013*

Net Change in Fund Balances - Total Governmental Funds	(\$6,331,306)
<i>Amounts reported for governmental activities in the statement of activities are different because :</i>	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.	
Capital Outlay	15,432,032
Depreciation	<u>(1,949,854)</u>
Total	13,482,178
Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.	
	(8,573)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Delinquent Property Taxes	759,074
Payment in Lieu of Taxes	1,959,471
Intergovernmental	<u>14,865</u>
Total	2,733,410
Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
	1,496,541
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Accrued Interest	(724,734)
Amortization of Premium	24,802
Amortization of Discount	(8,535)
Accretion	(60,908)
Amortization of Loss on Refunding	<u>(11,311)</u>
Total	(780,686)
Some expenses reported in the statement of activities, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Compensated Absences	(275,104)
Special Termination Benefits	<u>197,832</u>
Total	(77,272)
The internal service fund used by management to charge the costs of insurance to individual funds are not reported in the district-wide statements of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.	
	<u>175,877</u>
<i>Change in Net Position of Governmental Activities</i>	<u><u>\$10,690,169</u></u>

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Note 1 - Description of the School District and Reporting Entity

Mayfield City School District (the School District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as mandated by State and Federal agencies. The Board of Education controls the School District's six instructional facilities, one Cuyahoga East Vocational Educational Compact, two administration facilities and a bus garage staffed by 361 classified employees, 328 certificated full and part-time teaching, tutor and nursing personnel, and 37 administrators who provide services to 4,111 students and other community members.

Reporting Entity

A reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes the agencies and departments that provide the following services: general operations, food service and student related activities of the School District.

Non-public Schools - Within the School District boundaries, there are various non-public schools. Current State legislature provides funding to these non-public schools. These monies are received and disbursed on behalf of the non-public school by the Treasurer of the School District, as directed by the non-public school. These transactions are reported in a special revenue fund and as a governmental activity of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The School District has no component units.

The School District participates in two jointly governed organizations, the Mayfield Area Recreation Council and the Ohio Schools' Council Association. These organizations are presented in Note 15 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service funds is eliminated to avoid "doubling up" revenues and expenses. These statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type. The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are presented on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund The general fund is the operating fund of the School District and is used to account and report for all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Special Rotary Fund This fund accounts for and reports restricted monies from State and local sources which provides for the operation of classes for the hearing impaired.

Permanent Improvements Fund This fund accounts for and reports restricted property taxes levied to be used for various capital improvements within the School District.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed or assigned to a particular purpose.

Proprietary Funds Proprietary funds reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

Internal Service Funds The internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's internal service funds account for self insurance for medical, prescription drug, and vision claims of School District employees and for workers' compensation.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a private purpose trust which accounts for a college scholarship program for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency funds account for student activities and medical savings for employees.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (e.g., revenues and other financing sources) and uses (e.g., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the funds are included on the statement of fund net position. The statement of changes in fund net position presents increases (e.g., revenues) and decreases (e.g., expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activity.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

The private purpose trust fund is accounted for on a flow of economic resources measurement focus.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for the proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, fees and rentals.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources include a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2013, but which were levied to finance fiscal year 2014 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represent receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

property taxes, payment in lieu of taxes and grants and entitlements received before the eligibility requirements. These amounts are deferred and recognized as an inflow of resources in the period the amounts became available.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

The School District has segregated banks accounts for monies held in agency funds. These interest bearing depository accounts are reported as "cash in segregated accounts" on the Statement of Fiduciary Net Position.

During fiscal year 2013, investments were limited to nonnegotiable certificates of deposit and repurchase agreements. Investments are reported at fair value which is based on quoted market prices. Nonnegotiable certificates of deposits are reported at cost.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2013 amounted to \$57,257, which includes \$10,513 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

Materials and Supplies Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption.

Capital Assets

The School District's only capital assets are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by backtrending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year.) Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of ten thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives
Land Improvements	20 years
Buildings and Improvements	5 - 50 years
Furniture and Fixtures	5 - 10 years
Vehicles	15 years
Textbooks	5 years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the statement of net position.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the governmental-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence or employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employee who has accumulated unpaid leave is paid.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, and are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds, long-term loans and certificates of participation are recognized as a liability on the fund financial statements when due.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Internal Activity

Transfers between governmental activities are eliminated on the government wide financial statements. Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in internal service funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the School District Board of Education. In the general fund, assigned amounts represent intended uses established by the School District Board of Education or a School District official delegated that authority by resolution or by State statute. State statute authorizes the Treasurer to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The School District Board of Education assigned fund balance to cover a gap between estimated revenue and fiscal year 2014’s appropriated budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for non-public schools and special education.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are charges for services for self-insurance programs and workers' compensation. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Any revenues and expenses not meeting the definitions of operating are reported as nonoperating.

Bond Premiums and Discounts

On the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight line method. Bond premiums are presented as an increase of the face amount of the general obligation bonds payable. On fund financial statements, bond premiums are receipted in the year the bonds are issued. On the government-wide financial statements, bond discounts are presented as a decrease of the face amount of the general obligation bonds payable. On the fund financial statements, bond discounts are expended in the year the bonds are issued.

Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds. The Treasurer has been given the authority to allocate board appropriations to the function and object levels within each fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate when the original and final appropriations were passed by the Board of Education. Prior to June 30, the Board requested and received an amended certificate in which estimated revenue closely reflects actual revenue for the fiscal year.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Note 3 – Fund Deficits

Fund balances at June 30, 2013, included the following individual fund deficits:

Special Revenue Funds	
Miscellaneous State Grants	\$2,082
Miscellaneous Federal Grants	51,517
Capital Projects Fund	
Construction	419,761

The special revenue funds' deficit balances resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The capital projects fund's deficit fund balance is a result of the issuance of short-term bond anticipation notes which are used to finance the project until bonds are issued. Once the notes are retired or bonds are issued, the deficit will be eliminated.

Note 4 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presented for the general and major special revenue funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than restricted, committed or assigned fund balances (GAAP).
4. Unrecorded cash represents amounts received but not reported by the School District on the operating statements (budget), but which is reported on the GAAP basis operating statements.
5. Advances In and Advances Out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).
6. Budgetary revenues and expenditures of the uniform school supplies, adult education and public school funds are classified to general fund for GAAP Reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements:

Net Change in Fund Balance		
General and Major Special Revenue Funds		
	General	Special Rotary
GAAP Basis	\$142,684	\$715,863
Net Adjustment for Revenue Accruals	404,531	(28)
Advances In	594,461	0
Beginning Unrecorded Cash	371,793	151
Ending Unrecorded Cash	(7,602)	(89)
Perspective Differences:		
Uniform School Supplies	(11,634)	0
Adult Education	46,014	0
Public School	(11,710)	0
Net Adjustment for Expenditure Accruals	359,356	(74,709)
Advances Out	(460,036)	(55,964)
Encumbrances	(2,940,004)	(56,338)
Budget Basis	(\$1,512,147)	\$528,886

Note 5 - Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in securities listed above;
4. Bonds and other obligations of the State of Ohio;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
7. The State Treasurer's investment pool (STAR Ohio); and
8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Deposits

Custodial Credit Risk Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$28,844,188 of the School District's bank balance of \$34,967,755 was uninsured and uncollateralized. Although the collateral securities were held by the pledging financial institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Investments

At June 30, 2013, the School District had \$1,399,107 in federal home loan mortgage corporation notes and \$4,949,135 in United States Treasury, which serve as the underlying securities for the repurchase agreement which matures daily.

Note 6 – Receivables

Receivables at June 30, 2013, consisted of payments in lieu of taxes, property taxes, accounts (contributions and other), tuition and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables, except for delinquent property taxes, are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2013 represents collections of calendar year 2012 taxes. Real property taxes received in calendar year 2013 were levied after April 1, 2012, on the assessed value listed as of January 1, 2012, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2013 represents collections of calendar year 2012 taxes. Public utility real taxes received in calendar year 2013 became a lien December 31, 2011, were levied after April 1, 2012 and are collected in calendar year 2013 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Cuyahoga County. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the county by June 30, 2013, are available to finance fiscal year 2013 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2013 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

The amount available as an advance at June 30, 2013 was \$7,143,171 in the general fund, \$73,435 in the bond retirement fund and \$538,531 in the permanent improvements capital projects fund. The amount available as an advance at June 30, 2012 was \$7,688,948 in the general fund, \$93,640 in the bond retirement fund and \$579,971 in the permanent improvements capital projects fund.

On an accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

The assessed values upon which the fiscal year 2013 taxes were collected are:

	2012 Second Half Collections		2013 First Half Collections	
	Amount	Percent	Amount	Percent
Real Estate	\$1,335,610,790	98.83 %	\$1,287,346,370	98.69 %
Public Utility Personal	15,763,850	1.17	17,127,290	1.31
Total	\$1,351,374,640	100.00 %	\$1,304,473,660	100.00 %
Full Tax Rate per \$1,000 of assessed valuation	\$78.32		\$84.22	

On March 6, 2012, the residents of the School District approved a 5.9 mill dual purpose operating levy, 5.4 mill designated for current operating expenses and .5 mills designated for permanent improvements. Tax revenue from this levy was received beginning January 1, 2013.

Intergovernmental Receivable

A summary of the principal items of intergovernmental receivables follows:

Intergovernmental Receivables	Amounts
Special Education	\$155,280
Vocational Education	110,846
Title I	104,596
Workforce Investment Grant	56,155
Carl Perkins Grant	21,211
Classroom Size Reduction	13,798
Parent Mentor Program	2,746
Improving Teacher Quality	187
Total	\$464,819

Payment in Lieu of Taxes

According to State law, the City of Mayfield Heights has established several tax incremental financing districts within the City under which the City has granted property tax exemptions and agreed to construct certain infrastructure improvements. The property owners have agreed to make payments to the City to help pay the costs of the infrastructure improvements. The amount of those payments generally reflects all or a portion of the property taxes which the property owners would have paid if the property had not been declared exempt. The property owners' contractual promise to make these payments in lieu of taxes generally continues until the costs of the improvements have been paid or the agreement expires, whichever occurs first. Future development by these owners or others may result in subsequent agreements to make payments in lieu of taxes and may therefore spread the costs of the improvements to a larger number of property owners. The School District agrees to accept a portion of the service payments as compensation for the likely loss of future property tax increases.

Mayfield City School District

For the Fiscal Year Ended June 30, 2013

Note 7 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the government funds.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Special Rotary	Permanent Improvement	Other Governmental Funds	Total
<i>Nonspendable</i>					
Inventory	\$174,303	\$0	\$0	\$10,347	\$184,650
<i>Restricted for</i>					
Food Service Operations	0	0	0	382,345	382,345
College Scholarships	0	0	0	293,934	293,934
Vocational Education	0	0	0	445,161	445,161
Hearing Impaired Instruction	0	1,714,683	0	0	1,714,683
Technology Improvements	0	0	0	87,014	87,014
Athletics and Music	0	0	0	330,575	330,575
Auxiliary Services	0	0	0	55,562	55,562
Special Education	0	0	0	48,237	48,237
Classroom Size Reduction	0	0	0	7,523	7,523
Teacher Development	0	0	0	23,473	23,473
Debt Service Payments	0	0	0	2,097,819	2,097,819
Capital Improvements	0	0	3,334,338	0	3,334,338
<i>Total Restricted</i>	0	1,714,683	3,334,338	3,771,643	8,820,664

Note 8 - Contingencies

Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2013, if applicable, cannot be determined at this time.

Litigation

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

Note 9 - Interfund Transfers and Balances

Interfund Transfers

Transfers made during the year ended June 30, 2013 were as follows:

Transfers To	Transfers From				Total
	General	Special Rotary	Permanent Improvement	Internal Service	
<i>Other Governmental Funds:</i>					
Special Trusts	\$0	\$0	\$0	\$461	\$461
Athletics and Music	85,000	0	0	0	85,000
Bond Retirement	300,000	200,650	2,457,622	0	2,958,272
<i>Total Transfers</i>	<u>\$385,000</u>	<u>\$200,650</u>	<u>\$2,457,622</u>	<u>\$461</u>	<u>\$3,043,733</u>

The transfers from the general fund, special rotary special revenue fund and permanent improvement capital project fund to the general obligation bond retirement fund were made to meet debt service requirements paid from the bond retirement fund. The remaining transfers were made to move unrestricted balances to support programs and projects accounted for in other funds. The internal service fund made a transfer to the special trust special revenue fund to cover the Medical Mutual of Ohio scholarship.

Interfund Balances

Advances made during the year ended June 30, 2013 were as follows:

<u>Payable</u>	<u>Receivable</u>
	General Fund
<i>Other Governmental Funds</i>	
Vocational Education	\$27,381
Miscellaneous State Grants	4,134
Title VI-B	155,280
Carl Perkins Grant	21,211
Title III	2,885
Title I	105,670
Class Size Reduction	12,623
Miscellaneous Federal Grants	141,718
<i>Total</i>	<u>\$470,902</u>

These loans were made to support programs and projects in various special revenue funds pending the receipt of grant money that will be used to repay the loans. These loans are expected to be repaid in one year.

Central	248,977
Operation of Food Service	51,949
Extracurricular Activities	29,343
Total Depreciation Expense	<u><u>\$1,949,854</u></u>

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Note 11 - Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty-five days of vacation per year, depending upon length of service and hours worked. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and most administrators do not earn vacation. Administrators employed to work 260 days per year earn up to 22 days of vacation annually. Administrators who earn vacation are paid for accumulated unused vacation time upon termination of employment. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 300 days for regular classified and certified employees. Maximum sick leave accumulation for individuals on administrative contracts varies depending on the number of days in the administrator's work year. Upon retirement, all employees receive payment for a percentage of their total sick leave accumulation.

Life Insurance Benefits

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Guardian Life Insurance Company, in the amount of \$50,000 for all regular contracted employees and \$100,000 for individuals employed under the administrative salary agreement. The Treasurer's life benefit is equal to \$250,000 and the Superintendent's life benefit is equal to \$250,000.

Note 12 - Risk Management

Property and Liability

The School District is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2013, the School District contracted through the Ohio Schools Council with Todd Associates, Inc. as agent for the following insurances: Ohio Casualty for general liability, inland marine, flood and earthquake, property, and crime; and Travelers Insurance for boiler and machinery. There is a \$5,000 deductible on property insurance.

General liability is provided by Ohio Casualty with a \$1,000,000 each occurrence limit, \$2,000,000 annual aggregate with no deductible. Professional liability (errors and omissions) is provided by Ohio Casualty with a \$1,000,000 each occurrence limit and a \$1,000,000 aggregate with a \$5,000 deductible. Vehicles are also covered by Ohio Casualty through Ohio Schools Council with Todd Associates as agent with a combined single limit of \$1,000,000 and a \$1,000 deductible from the actual cash value for collision. Automobile liability is provided by Ohio Casualty on the umbrella policy with a \$10,000,000 combined single limit with no deductible. The umbrella policy also covers excesses over coverage provided by general liability, employee benefits liability, employer's liability, sexual misconduct, and errors and omissions.

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from last year.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Worker's Compensation

On May 1, 2010, the School District was approved for self-insurance status by the Bureau of Workers' Compensation and began to administer its own workers' compensation program (the program). The School District has established a workers' compensation internal service fund to account for assets set aside for claim settlements and related liabilities associated with the program. Liabilities of the fund are reported when an employee injury has occurred, it is probable that a claim will be filed under the program and the amount of the claim can be reasonably estimated. The School District utilizes the services of Comp Benefit, the third party administrator, to review, process, and pay employee claims. The School District also maintains excess insurance coverage which would pay the portion of claims that exceed \$350,000 per occurrence for all employees.

The claims liability of \$130,283 reported in the fund at June 30, 2013, is based on an estimate provided by the third party administration and the requirements of GASB Statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Management's expectation is the claims liabilities will be paid within one year. Changes in the fund's claim liability amount for 2013 were:

	<u>Balance at Beginning of Year</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at End of Year</u>
2012	\$91,767	\$6,585	\$91,767	\$6,585
2013	6,585	282,079	158,381	130,283

Employee Insurance Benefits

Medical, prescription drug, and vision insurance is offered to employees through a self-insurance internal service fund. Medical Mutual of Ohio administers the plan and reviews all claims paid by the School District. The claims liability of \$729,392 reported in the fund at June 30, 2013, is based on an estimate provided by the third party administrator and the requirements of GASB Statement No. 30 "Risk Financing Omnibus," which requires that a liability for unpaid claims cost, including estimates of cost relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Management's expectation is the claims liabilities will be paid within one year. Changes in the fund's claims liability amount for 2013 were:

	<u>Balance at Beginning of Year</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at End of Year</u>
2012	\$0	\$7,331,585	\$6,720,172	\$611,413
2013	611,413	7,955,260	7,837,281	729,392

Note 13 – Fund Obligations

On June 27, 2012, the School District issued a 1.5 percent School Improvement Note in the amount of \$800,000. The note matured on June 27, 2013. On June 26, 2013, the School District issued a 1.75 percent School Improvement Note in the amount of \$500,000. The note matures on June 26, 2014.

On August 31, 2010, the School District issued \$4.0 million of Qualified School Construction Bonds (QSCB) Certificates of Participation as taxable direct payment special obligations. The Certificates of Participation mature on September 1, 2027 and were issued to finance school construction and improvements to its lower-level bus storage garage for the benefits of its consortium program. The Qualified School Construction Bonds will be paid from property taxes from the bond retirement debt service fund. In accordance with bond covenants, the School District shall deposit in the Sinking Fund for the accumulation of funds necessary to pay the bonds at maturity. The School District shall deposit monies annually on September 15 of each year as needed so that the balance in the Sinking Fund (taking into account the interest earned on such fund) shall be equal to and not exceed the amounts set forth below.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

The principal (sinking fund deposits) and interest requirements to maturity are as follows:

<u>Fiscal Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	\$205,000	\$8,000	\$213,000
2015	210,000	12,100	222,100
2016	215,000	16,300	231,300
2017	220,000	20,600	240,600
2018	225,000	25,000	250,000
2019	230,000	29,500	259,500
2020	235,000	34,100	269,100
2021	240,000	38,800	278,800
2022	245,000	43,600	288,600
2023	250,000	48,500	298,500
2024	255,000	53,500	308,500
2025	260,000	58,600	318,600
2026	265,000	63,800	328,800
2027	270,000	69,100	339,100
2028	275,000	74,500	349,500
Totals	<u>\$3,600,000</u>	<u>\$596,000</u>	<u>\$4,196,000</u>

The Series 2010 Certificates are subject to extraordinary optional redemption prior to stated maturity, by and at the sole option of the School District, in whole or in part on any date, at a redemption price equal to 100 percent of the principal amount redeemed plus any interest accrued to the redemption date, in the event that the direct payments cease or are reduced.

To the extent that the School District fails to expend all of the proceeds of the Series 2010 Certificates within the three year period beginning on the date of delivery of the Series 2010 Certificates (or, if an extension of that expenditure period has been received by the School District from the Secretary of the United States Treasury, at the close of the extended period), the Series 2010 Certificates are subject to extraordinary mandatory redemption, in whole or in part on any date on or prior to the 90th day following the close of the three year period (or extended period) at a redemption price equal to 100 percent of the principal amount redeemed, plus any interest accrued to the redemption date, payable from such unexpended proceeds, to the extent necessary, in the opinion of nationally recognized bond counsel rendered at the request of the School District or pursuant to a final determination by the Internal Revenue Service or court of competent jurisdiction in the United States, to preserve the tax status of the Series 2010 Certificates as direct payment Qualified School Construction Bonds.

In the event the Lease is terminated because the School District does not appropriate sufficient money to pay lease payments with respect to the Leased Property for any immediately succeeding Renewal Term, or the School District defaults under the Lease, all of the outstanding certificates are subject to special redemption by the Trustee in whole at any time for which the required notice may be given at a price equal to 100 percent of the principal amount redeemed, plus interest accrued to the redemption date, from any available funds.

On October 28, 2009, the School District issued \$23,210,775 in Certificates of Participation for various school improvements, which included \$10,000,000 in serial bonds, \$1,075,775 in capital appreciation bonds and \$12,135,000 in term bonds, \$9,500,000 of which are Build America Bonds (BABs). The serial bonds were issued for a 15 year period with a final maturity date of September 1, 2025. The capital appreciation bonds were issued for a 20 year period with a final maturity date of September 1, 2029. The final amount of

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

capital appreciation bonds will be \$4,909,750. The term bonds were issued for a thirty year period with a final maturity in September 1, 2039. The certificates of participation were sold at a premium of \$103,661. As part of the American Recovery and Reinvestment Act of 2009, Congress added Sections 54AA and 6431 to the Code, which permit state or local governments to obtain certain tax advantages when they issue BABs. Under Section 6431 of the Code, the School District may elect to receive payments directly from the Secretary of the United States Treasury equal to 35 percent of the corresponding interest payable on this issue. The Certificates of Participation will be paid from property taxes from the bond retirement debt service fund.

The term bonds maturing on September 1, 2039 are subject to mandatory sinking fund. The mandatory redemption is to occur on September 1 in each of the years 2029 through 2039 (with the remaining principal amount of \$1,405,000 to be paid September 1, 2039) at a redemption price of 100 percent of the principal amount to redeemed, plus accrued interest to the date of redemption, according to the following schedule:

<u>Year</u>	<u>Amount</u>
2029	\$775,000
2030	895,000
2031	975,000
2032	985,000
2033	1,025,000
2034	1,100,000
2035	1,145,000
2036	1,195,000
2037	1,290,000
2038	1,345,000
2039	1,405,000

The term bonds are also subject to extraordinary optional redemption, in whole at any time or in part on any interest payment date, at a redemption price of 100 percent of the principal amount thereof, plus accrued interest, to the date fixed for redemption in the event that the Build America payments from the federal government cease or are in an amount less than 35 percent of the corresponding interest payable on the bonds. The term bonds that mature on September 1, 2039, are subject to mandatory sinking fund redemption on September 1, 2029, and on each September 1 thereafter at 100 percent of the principal amount thereof, plus accrued interest, to the date of redemptions.

The School District issued \$15,000,000 in Certificates of Participation on October 3, 2006 for the purpose of various school improvements. The certificates of participation were issued at both a premium of \$40,149 and a discount of \$248,918. The certificates were issued for a thirty year period with a final maturity in September 1, 2036. The certificates will be paid from property taxes from the bond retirement debt service fund.

On November 19, 2009, the School District issued \$3,825,000 of refunding school improvement general obligation bonds which was used to refund the 1998 school improvement bonds outstanding. The bonds mature on December 1 of each of the years 2010 through 2018. Interest payments, at rates ranging from 2.625 percent to 4.25 percent per year are payable on June 1 and December 1 of each year, until the principal amount is paid. The general obligation bonds will be paid from property taxes from the bond retirement debt service fund.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

In fiscal year 2007, the School District entered into an agreement with the Ohio School Facilities Commission (OSFC) for an interest free \$500,000 loan to finance the Mayfield Excel Technical Horticulture Center. The loan matures on June 30, 2021, and will be paid out of the bond retirement debt service fund.

In fiscal year 2008, the School District entered into an agreement with the Ohio School Facilities Commission (OSFC) for an interest free \$500,000 loan to finance the Mayfield Excel Technical Horticulture Center. The loan matures on June 30, 2022, and will be paid out of the bond retirement debt service fund.

Compensated absences will be paid from the general fund and the food service, vocational education, adult education, special rotary, Title VI-B, Carl Perkins grant, Title I and miscellaneous federal grants special revenue funds. Termination benefits will be paid from the general fund and the special rotary special revenue fund.

The overall debt margin of the School District as of June 30, 2013 was \$115,758,777 with an unvoted debt margin of \$1,304,474. Principal and interest requirements to retire general obligation bonds, OSFC loans and certificates of participation outstanding at June 30, 2013 are as follows:

	General Obligation Bonds		OSFC Loans	Certificates of Participation	
	Principal	Interest		Serial	
				Principal	Interest
2014	\$410,000	\$99,125	\$66,666	\$1,055,000	\$1,762,711

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

In 2009, the School District defeased a 1998 school improvement general obligation bond issue in order to take advantage of lower interest rates. The proceeds of the new bond were placed in an irrevocable trust to provide for all future debt service payments on the old bond. Accordingly, the trust account assets and liabilities for the defeased bond are not included in the School District's financial statements. On June 30, 2013, \$2,780,000 of the defeased bond is still outstanding.

Note 15 - Jointly Governed Organizations

Mayfield Area Recreation Council The Mayfield Area Recreation Council (Council) is a jointly governed organization. The Council was formed to provide recreational activities to the communities of Mayfield City School District. The Board of Education appoints two members of the eleven-member commission, and the other members are appointed by Mayfield Village Council, Highland Heights City Council and Mayfield Heights City Council. The School District makes no financial contributions to the Council, but it does provide the use of its facilities and land. The School District's control is limited to its representation on the governing board. The Council exercises total control over the operations of the Mayfield Area Recreation Council including budgeting, appropriating, contracting and designating management. The Council's continued existence is not dependent on the School District's continued participation. The Council is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit or burden on the School District. During fiscal year 2013, the Council voted to disband the Mayfield Area Recreation Council effective December 31, 2013. Financial information on the Council can be obtained from Kay Vincent, Secretary, 211 Alpha Park, Highland Heights, Ohio 44143.

Ohio Schools' Council Association The Ohio Schools Council (Council) is a jointly governed organization among 198 school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly September to June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. The degree of control exercised by any participating School District is limited to its representation on the Assembly. The Board exercises total control over the operations of the Ohio Schools' Council Association including budgeting, appropriating, contracting and designating management. In fiscal year 2013, the School District paid \$2,276 to the Council. Financial information can be obtained by contacting Dr. David A. Cottrell, the Executive Director of the Ohio Schools Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

The School District participates in the natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Energy USA served as the natural gas supplier and program manager from October 1, 2008 to September 30, 2010. Compass Energy has been selected as the new supplier and program manager for the period from October 1, 2010 through March 31, 2013. There are currently 143 participants in the program including the Mayfield City School District. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Note 16 – Defined Benefit Pension Plans

School Employees Retirement System

Plan Description – The School District participates in the School Employees Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2013, the allocation to pension and death benefits was 13.10 percent. The remaining 0.90 percent of the 14 percent employer contribution rate is allocated to the Medicare B and Health Care funds. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2013, 2012, and 2011 were \$1,462,314, \$1,446,176 and \$1,284,046, respectively. For 2013, 95.88 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2012 and 2011.

State Teachers Retirement System of Ohio

Plan Description – The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that can be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50. Benefits are established by Ohio Revised Code Chapter 3307.

A DB or Combined Plan member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon the recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The statutory maximum employee contribution rate will be increased one percent each year beginning July 1, 2013, until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2013, plan members were required to contribute 10 percent of their annual covered salary. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations.

The School District's required contributions to STRS Ohio for the DB Plan and for the defined benefit portion of the Combined Plan were \$4,111,606 and \$51,886 for the fiscal year ended June 30, 2013, \$4,129,804 and \$48,444 for the fiscal year ended June 30, 2012, and \$4,097,914 and \$45,239 for the fiscal year ended June 30, 2011. For fiscal year 2013, 84.86 percent has been contributed for the DB plan and 85.01 percent has been contributed for the Combined Plan, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2011 and 2010.

Contributions made to STRS Ohio for the DC Plan and for fiscal year 2013 were \$35,143 made by the School District and \$25,102 made by the plan members. In addition, member contributions of \$37,061 were made for fiscal year 2013 for the defined contribution portion of the Combined Plan.

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2013, one member of the Board of Education has elected Social Security. The Board's liability is 6.2 percent of wages.

Note 17 – Postemployment Benefits

School Employee Retirement System

Plan Description – The School District participates in two cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plans administrated by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligation to contribute are established by SERS based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For fiscal year 2013, 0.16 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for fiscal year 2013, this amount was \$20,525. During fiscal year 2013, the School District paid \$158,225 in surcharge.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The School District's contributions for health care for the fiscal years ended June 30, 2013, 2012, and 2011 were \$17,860, \$62,877 and \$155,471, respectively. For 2013, 95.88 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal year 2012 and 2011.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2013, this actuarially required allocation was 0.74 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2013, 2012, and 2011, were \$82,604, \$85,742 and \$82,631, respectively. For 2013, 95.88 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2012 and 2011.

State Teachers Retirement System

Plan Description – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2013, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2013, 2012, and 2011 were \$320,269, \$321,404 and \$311,744, respectively. For 2013, 84.86 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal year 2012 and 2011.

Note 18 - Set Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purpose in future years.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

The following cash basis information describes the change in the fiscal year end set aside amount for capital acquisition. Disclosure of this information is required by State statute.

	Capital Improvements
Set-Aside Balance as of June 30, 2012	\$0
Current Year Set-aside Requirement	699,401
Qualifying Disbursements	(1,389,554)
Total	(\$690,153)
Set-Aside Balance Carried Forward to Future Fiscal Years	\$0
Set-Aside Balance as of June 30, 2013	\$0

Although the School District had qualifying disbursements during the fiscal year that reduced the capital acquisition set-aside amounts below zero, this amount will not be used to reduce the set-aside requirements of future years.

Note 19 – Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

General fund	\$2,959,038
Special Rotary	56,338
Permanent Improvement	795,769
Other Governmental Funds	502,471
Total	\$4,313,616

Note 20 – Change in Accounting Principles

For fiscal year 2013, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 60, “Accounting and Financial Reporting for Service Concession Arrangements,” Statement No. 61, “The Financial Reporting Entity: Omnibus—an amendment of GASB Statement No. 14 and 34,” Statement No. 62, “Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989, FASB and AICPA Pronouncements,” Statement No. 63, “Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position,” Statement No. 65, “Items Previously Reported as Assets and Liabilities” and Statement No. 66, “Technical Corrections—2012—an amendment of GASB Statements No. 10 and No. 62.”

GASB Statement No. 60 improves financial reporting by addressing issues related to service concession arrangements, which are a type of public-private or public-public partnership. The implementation of this statement did not result in any change in the School District’s financial statements.

Mayfield City School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

GASB Statement No. 61 modifies certain requirements for inclusion of component units in the financial reporting entity and clarifies the reporting of equity interests in legally separate organizations. These changes were incorporated in the School District's financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 62 incorporates into GASB's authoritative literature certain FASB and AICPA pronouncements issued on or before November 30, 1989. The implementation of this statement did not result in any change in the School District's financial statements.

GASB Statement No. 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related note disclosures. These changes were incorporated in the School District's financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 65 properly classifies certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or recognizes certain items that were previously reported as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues). These changes were incorporated in the School District's 2013 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 66 resolves conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting and thereby enhance the usefulness of the financial reports. The implementation of this statement did not result in any change in the School District's financial statements.

Combining and Individual Fund Statements and Schedules

Combining Statements – Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Following is a description of the School District's nonmajor special revenue funds:

Food Service Fund This fund accounts for and reports the restricted financial transactions related to the food service operations of the School District.

Special Trusts Fund This fund accounts for and reports restricted monies from local donations for the purpose of scholarships for students.

Vocational Education Fund This fund accounts for and reports restricted revenues and expenses relating to the operation of the School District's vocational education programs.

Technology Fund This fund accounts for and reports restricted voluntary revenue abatement used for computer related items for the two school buildings located in Mayfield Village.

Web Grant Fund This fund accounts for and reports restricted monies from local sources which provides career coordinator activities for the vocational education program.

Athletics and Music Fund This fund accounts for and reports restricted gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the School District's athletic program and transportation of the band to and from athletic events.

Auxiliary Services Fund This fund accounts for and reports restricted funds which provide services and materials to pupils attending non-public schools within the School District.

Network Connectivity Fund This fund accounts for and reports restricted State monies used for the installation and ongoing support of the data communication links connecting public school buildings to the Statewide Network and to the Internet.

Miscellaneous State Grants Fund This fund accounts for and reports restricted State monies which support academic and enrichment programs for the student body.

Education Jobs Fund This fund accounts for and reports restricted Federal grant monies to assist schools in providing educational and related services for early childhood, elementary, and secondary education. This fund did not have any budgetary activity in fiscal year 2011; therefore, budgetary information is not provided.

Title VI-B Fund This fund accounts for and reports restricted Federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Carl Perkins Grant Fund This fund accounts for and reports restricted federal monies used for the development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, ancillary services, research, advisory committees, and work study projects.

Technology II-D Grant Fund This fund accounts for and reports restricted Federal monies used primarily for assistive mobility and learning devices for orthopedically handicapped students.

Title III Fund This fund accounts for and reports restricted Federal monies used for costs associated with English proficiency.

(continued)

Combining Statements – Nonmajor Governmental Funds (continued)

Nonmajor Special Revenue Funds (continued)

Title I Fund This fund accounts for and reports restricted Federal monies used to assist the School District in meeting the special needs of educationally deprived children.

Preschool Grant Fund This fund accounts for and reports restricted Federal revenues used for speech therapy services and instructional supplies used in preschool programs.

Class Size Reduction Fund This fund accounts for and reports restricted Federal monies received to encourage and help fund smaller classroom size and additional staffing needs.

Miscellaneous Federal Grants Fund This fund accounts for and reports various restricted monies received through State agencies from the Federal government or directly from the Federal government which are not classified elsewhere.

Uniform School Supplies Fund This fund accounts for and reports the purchase of sale of school supplies for use in the School District. Profits derived from such sales are used for school purposes or activities connected with the School District. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Adult Education Fund This fund accounts for and reports revenues and expenses involved in upgrading and retraining out-of-school youths and adults for the purpose of improving their skills and knowledge in their occupation or planned occupation. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Public School Fund This fund accounts for and reports school site sales revenue and expenditures for field trips, assemblies, and other activity costs. This fund is included with the general fund for GAAP reporting as it does not have a restricted or committed revenue source.

Nonmajor Debt Service Fund

The Debt service fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for principal and interest.

Bond Retirement Fund This fund accounts for and reports the restricted payments of the retirement of principal and interest on outstanding bonds.

Nonmajor Capital Projects Funds

The Capital Projects Funds are used to account for financial resources that are restricted, committed or assigned to expenditures for capital outlays including the acquisition or construction of major capital facilities and other capital assets, other than those financed by proprietary fund or for assets that will be held in trust. Following is a description of the nonmajor capital project fund:

Construction Fund This fund accounts for and reports restricted financial resources to be used for the construction of major capital facilities.

Replacement Fund This fund accounts for and reports monies assigned to be used in the rebuilding, restoration or improvement of the School District property.

Combining Statements – Internal Service Funds

Internal Service Funds

Internal service funds are established to account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis.

Insurance Fund – To account for revenues used to provide for medical, prescription drug, and vision claims of the School District employees.

Workers' Compensation Fund – To account for revenues used to provide workers' compensation benefits to employees.

Combining Statements - Agency Funds

Agency Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the School District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results or operations. A description of the School District's agency funds follows:

Student Activities Fund This fund reflects resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities.

Flexible Spending Fund This fund reflects resources that belong to the School District employees to be used for medical expenses.

Statistical Section

Statistical Section

This part of the Mayfield City School District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the School District's overall financial health.

Contents	Pages(s)
-----------------	-----------------

<i>Financial Trends</i>	S2 – S9
--------------------------------------	----------------

These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.

<i>Revenue Capacity</i>	S10 – S22
--------------------------------------	------------------

These schedules contain information to help the reader assess the School District's most significant local revenue, the property tax.

<i>Debt Capacity</i>	S24 – S28
-----------------------------------	------------------

These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.

<i>Economic and Demographic Information</i>	S29 – S31
--	------------------

These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place.

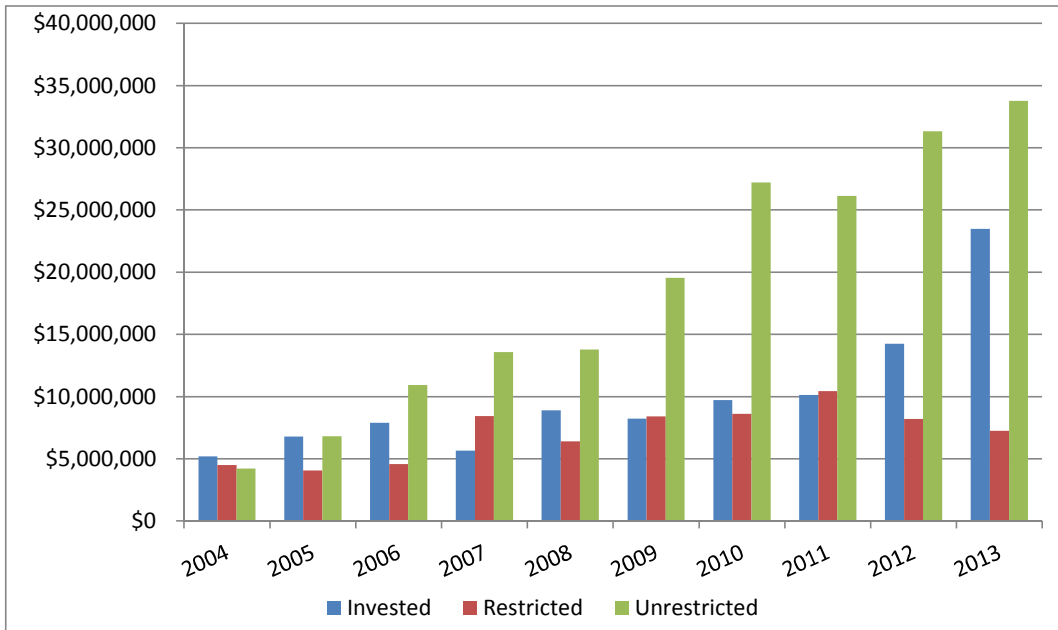

<i>Operating Information</i>	S32 – S44
---	------------------

These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10 percent rollback for commercial/industrial property has been eliminated.

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

Real property tax rates are reduced so that inflationary increases in value do not generate additional taxes.

Overlapping rates are those of local and county governments that apply to property owners with the School District.

Source: Ohio Department of Taxation

Note: Emergency and Debt Service levies are designed to raise a fixed amount of revenue each year. A rate is set each year so that when it is applied to the total assessed value, that fixed amount is generated.

Source: Office of the County Fiscal Officer, Cuyahoga County, Ohio

- (1) Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental revenue.
- (2) The 2013 information cannot be presented because all collections have not been made by June 30, 2013.
- (3) The County does not maintain delinquency information by tax year.

Note: The School District is aware of the requirements to report delinquent tax collections by levy year rather than by collection year. However, the County's current computer system tracks levy amounts by either current levy or delinquent levy. Once amounts become part of the delinquent levy, the ability to track information by levy year is lost. The School District is looking at options to improve the presentation.

- (1) HB530 changed the assessed valuation utilized in the legal debt margin calculation to exclude tangible personal property as well as railroad and telephone tangible property.
- (2) Ohio Bond Law sets a limit of 9% for overall debt and 1/10 of 1% for unvoted debt.
