

# MY PRACTICE E-BOOK

**Mrs. Carlson**

This is my practice e-book. I went to File-Layout and made a custom layout of 8.5 x 11 inches. Now I have pages that look like a book.

I used one of the custom themes, Beach Day. The color on the title page was aqua and the other pages were white. I changed them to a yellow.

I can add pictures to my pages by going to the Insert menu.

SOMEONE IS READING A BOOK ON A MOBILE DEVICE!

I added the slide from right animation to make it seem like I was swiping to the next page when I'm presenting.

I can keep my e-book as a slide presentation and share it with others.

I can also download it as a PDF. When I read it as a PDF, I scroll down the pages to read it. I found that it was easier to read if I set the size to 75%.

If you're reading the PDF version of this E-book, here's a link to the presentation.
