Notifications (Portal)

PATH: *Portal > Notification Bell*

In the Portal, parents and students have the option of receiving notifications for attendance, score, and grade changes.

Access notifications through the bell icon at the top of the Portal. A counter totals the number of notifications you've received since you last looked at them.

Notifications in the Portal

Click the notification to go to the related area of the Portal, such as Attendance or Grades.

The blue box next to a notification indicates if you've read the notification or not. Mark a notification as read by clicking this box, clicking the notification to go to the related area, or by clicking *Mark All As Read* in the notifications modal.

Click *See More* to view additional notifications. Be aware that notifications are deleted after 30 days.

Parents receive notifications for all students in their household, whereas students only receive notifications for themselves.

Notification Settings

The Notification Settings tool is at the bottom of the Portal index. Alternately, click the *Settings* link in the Notifications modal to access Settings. From here, you can opt out of receiving specific kinds of notifications.

Notification Settings

Check each notification that you want to receive. Unchecking the box will stop the notification. A notification is deleted after 30 days.

Parents - Settings changes will apply to all students in the household and affect only your parent notifications. Students make their own settings changes to affect their own notifications.

Students - Your settings changes will apply to your notifications only.

Attendance (Notifies you when there is an absence or tardy)

Grade Changes (Notifies you when a grade is changed)

Assignment Scores (Notifies you when an assignment is scored)

Portal Notification Settings

Portal users who are also employed by the district may see notifications that cross platforms, with Portal notifications displaying in the Campus application and vice versa.
