4. How were the students selected that were classified as the "top 20%"?
5. Briefly state the results of the study.
6. What were the four reasons Rosenthal gave as to why the younger students' results were so different from the older students?
  - a.
  - b.
  - c.
  - d.
7. What did Chaiken, Sigler and Derlega find in their study?
8. What is a criticism of IQ tests, and why?
9. Briefly discuss one of the recent applications.

## **Study #30 – JUST HOW ARE YOU INTELLIGENT?**

1. How is Gardner's theory of intelligence different from earlier theories?
2. Briefly describe the eight "signs" that Gardner said must be present for an ability to be considered one of the multiple intelligences.

1.

2.

3.

4.

5.

6.

7.

8.

3. Name and briefly describe the eight intelligences according to Gardner. Put a star next to the ones you think you most likely possess.

1.

2.

3.

4.

5.

6.

7.

8.

4. Explain the three major criticisms leveled at Gardner's theory.

1.

2.

3.
