

# Community Based Internship Program at Rockwell Automation

## Program Highlights

Students will learn relevant, marketable skills in a corporate environment. This structure facilitates a seamless combination of classroom instruction, career exploration and soft skills training through internship experiences. On the job training is done by a Rockwell employee who serves as the mentor throughout the 18 week experience. The CEVEC staff provides assistance and weekly feedback to interns. Refining soft skills and development of strong social skills is the backbone of the Community Based Internship program. The goal of the program is for all students to obtain a summer work experience.

### SOCIAL THINKING©

“Social Thinking© is what we do when we interact with people: we think about them. And how we think about people affects how we behave, which in turn affects how others respond to us, which in turn affects our own emotions.”
