

Unless there is a calamity day, **transportation will always be provided!** If your program is in session (except for calamity days) you are expected to attend.

If your home school is not in session, you must still attend your tech program. Due to the high cost of gas, the following procedures will be followed:

- If for any reason you will not be using school transportation **please notify your transportation department.** Phone numbers are on our website under Transportation.
- If you miss the bus that brings you to your program for any reason other than your home school bus got you there late - you will be responsible for finding your own transportation to your program. Buses cannot be called to come back for one student
- If you are not a daily bus rider but need to ride the bus for a brief period of time **you must call** transportation and set that up.

On the first day of school a staff member will be outside to assist students who come through the Mayfield depot and will need to transfer to another bus to get to their program school. Please note that all the buses will have the program name in the front window. If you cannot find your bus please immediately ask for assistance.
