

Social Building Skills

<http://www.education.com/activity/preschool/social-skills/>

- Provide opportunities for your child to spend time with other children playing and talking.
- Encourage your child to share and to take turns.
- Give small chores or jobs to your child so that they may experience responsibility and a sense of accomplishment.
- Get into a daily routine now so that the transition to those early school days will go more smoothly!
- Talk and model how to express feelings appropriately and with self control.
- Remind children to listen when others talk (*looking into the speaker's eyes, waiting their turn to speak*). www.hubbardscupboard.org
-
