COVID-19 Coronavirus
The best ways to protect yourself:

- Wear a Cloth Face Mask
- Wash Your Hands
- Cough or Sneeze into Your Elbow
- Avoid Large Groups
- Practice Social Distancing
- Clean and Disinfect
- Stay Home When Sick
- Maintain Healthy Habits

If you have chest pain, shortness of breath, dizziness, a severe headache or other potentially life-threatening problems, go to the nearest emergency department or call 911.
