# Understanding Deadlines

## *Early Deadlines*

Students apply early and receive a decision well in advance of the institution's regular response date.

Students make a commitment to a first choice school where, if admitted, they commit to enrolling and withdraw all other applications. Their application deadline and decision deadline happen in advance of regular decision deadlines.

Students apply to a school of preference and receive a decision early. They may be restricted from applying ED or EA to other institutions. If offered enrollment, they have until **May 1** to confirm.

# Understanding Deadlines

## *Regular Deadlines*

Students submit an application by a specified date and receive a decision in a clearly stated period of time.

Institutions review applications as they are submitted and render admission decisions throughout the admission cycle.

Three stylized green leaves of varying shades (light green, medium green, and dark green) are arranged in a cluster in the top left corner.

# Benefits of Applying Early

- Shows expressed interest in College/University
- More applicants accepted out of EA/ED than RD
- Admission decisions, financial aid offer letters arrive earlier allowing time to make final decision
- Less stress during senior year; giving yourself time to enjoy 12th grade and make decisions

## Should I apply Early Decision (ED)?

- Has used the Net Price Calculator and understands potential financial commitment
