To install secure print...

Step 1: On windows 10 or 11 – open "This Pc" from the desktop.

Step 2: Highlight the top white bar which says "This Pc" and type <u>\\uniflow2</u> over it.

				Clipboard	Organize
\leftarrow	\rightarrow	¥	Υ	💻 \\uniflow2	

Hit enter.

Step 3: Double click on secure print

Step 4: Install the driver.

Step 5: Once you see the white box, the installation is complete.
