

Mary Cassatt

The Boating Party

Submitted by Lynn Rollins, 2011

I found very inexpensive plastic bowls at Target (4 for \$1.50). I bought several different bright colors since their weren't enough in one color. Then I cut paper into triangular shapes for sails. Each child decorated their sails (with markers, pencils, crayons, stickers etc.), then glued them onto a "mast", a small wooden dowel. I gave each child a small piece of clay to place in their bowl. They stuck the dowel in the clay and had a sail boat that they could take home and float in their bathtub.
