

Henri Matisse

“Still Life with Goldfish”

Submitted by Abbie Owens

Here is the supply list for this project. See the attached photo. Also I am going to play for the children The Beatles song “Octopus’s Garden” and discuss things that live in the water. This is a fantastic song for children.

Pastel Chalk

Fabric 1/2 yard each of two different fabrics

Black Construction Paper

Yellow Construction Paper for table and reflection

Green Foam board for leaves

Orange poster board for fish

Small googly eyes

Heavy weight sheet protectors for fish bowl

Black magic marker for shadow

I drew all shapes just free hand - no pattern. I cut out all shapes and instruct the children where to glue pieces. Also I provide each child with a template on the black paper so they know where things get glued down. I cut the fabric and already had it glued down so the children didn't have to do it themselves.
